

Dear Fred Dennis.

July 16,2012

On behalf of the Building and Grounds Committee and on behalf to the United Presbyterian Church of Cortland, NY, I wish to thank you and your Steeple Jacks for the excellent job you did on our Church steeples--large and small.

Everything went so smoothly--you came when you said you would--your crew worked hard despite the heat--the work area was always secured and kept clean.

You alwasys gave good advice and suggestions. A special thanks for painting the louvers in the large steeple.

The new shingles and the copper edging on the steeple look fabulous.

I would be proud to recommend you and your company to anyone who would be in need of your services.

Very respectfully,

Peter P. Adams--B&G Cortland UPC
